Hiemens Bottling Machines

*Manufacturer of Automatic Packaging Machines & Processing Equipment for Mineral Water,
Soda, Soft Drink, Liquor, Juice, Edible Oil etc.*

*We are committed to provide dynamic and robust products and services to our esteemed clients
for their growing business needs across the world. Machines Commissioned more than 500+ till
now and counting...*

About Hiemens

Hiemens Bottling Machines is a Latin Word meaning hard working people. As the name suggests; we have 'Worked Hard' to earn the esteemed name and reputation in the field of Bottle Packaging and Processing Industry. The Company was formed in 1999 by Mr. D.P Sharma; a well know personality and a respected name in the field of bottling industry. His contributions to this industry are beyond imagination. He has made his Country proud throughout the world and has earned an esteemed name in this field even in the European, Russian & American markets. Hiemens Bottling Machines deals with any kind of Liquid Products which are to be Packed in any kind of bottle/containers; either PET, Glass or Cans. More than 100 people are employed with the company directly & Indirectly to manufacture & provide services to its clients. Products which are handled by our plants and machinery are Water, Juice, Soft drink, Soda, Ketchup, Alcohol, Edible Oil, Synthetic oils, Energy drinks, Pesticides, honey, Synthetic or Flavored drinks. We deal coherently with Processing, Packaging, Labeling, Conveyor and End Line Packaging Solutions.

Mr. D. P. Sharma

Founder & Chief Executive Officer

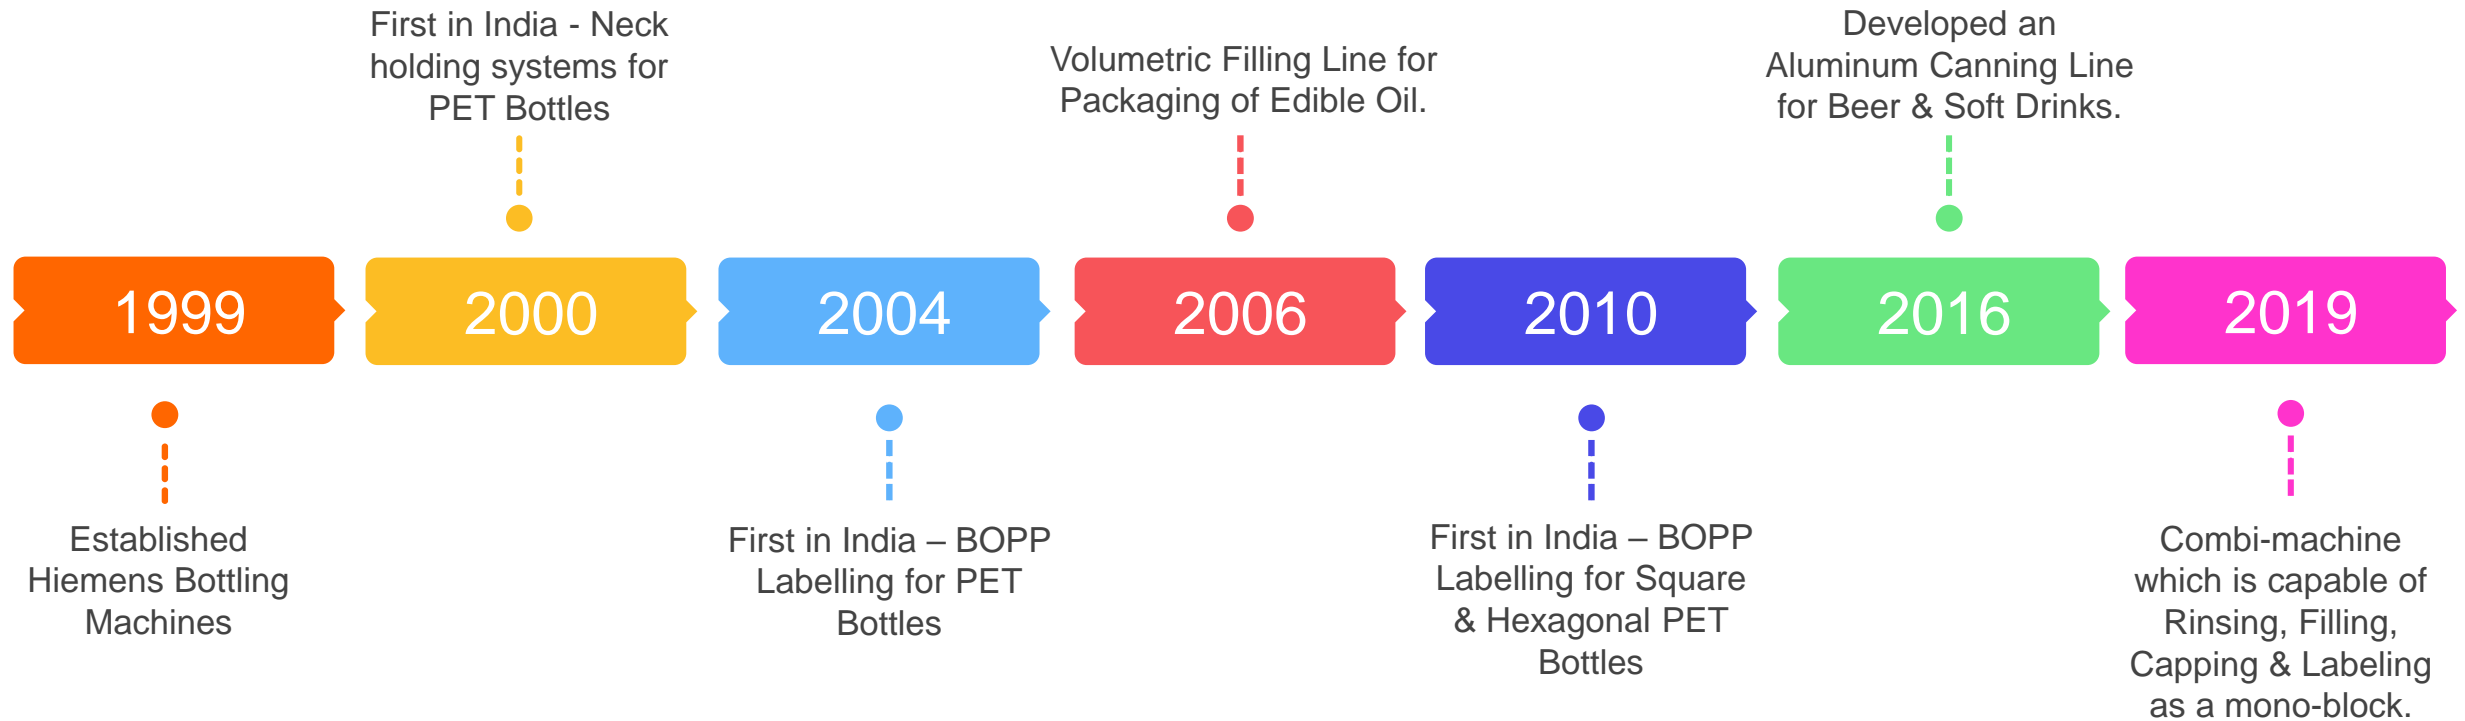

Vision & Mission

Hiemens Bottling Machines customers around the world are primarily from the food and beverage (liquid food) industry. Our customers' satisfaction is our highest priority. We supply them with the best machines, lines and systems, including all services and innovative solutions, and this on a global level. To consolidate our position, we will profitably grow stronger than the market (peer group) in every segment and continue to advance our technological leadership and competitive standing – with innovative strength, a willingness to change and consistent commitment. We listen to our customers, develop our products to suit their needs and expand on them with new technologies. Our lines and complete solutions provide the highest level of efficiency at competitive prices. Our global network enables us to provide fast, cost-effective, high-quality service – anytime and anywhere.

We are a corporation where a diversity of cultures, languages, and lifestyles come together on an equal footing. We treat each other fairly and openly, take on responsibility and make decisions. All of our actions are characterized by honesty and transparency. We are interested in the thoughts and opinions of our employees and partners and are willing to learn from others. We are proud of our products.

HBM – Company Timeline

Products & Services

- Counter Pressure Filling
- Gravity Filling
- Vacuum Based Filling
- Volumetric Filling
- Jar Filling
- Aluminium Can Filling
- BOPP Labelling for Round, Square & Hexagonal Bottles
- Sticker Labelling
- Shrink Labelling
- Air Conveyors
- Slat Chain Conveyors
- Bottle Accumulation Systems
- Gravity Rollers
- Shrink Wrapping Machines
- Warming/Cooling Tunnels
- Carton Casing Machines
- Conveyor Systems
- Processing Equipment

Products & Services

- Layout of Machinery Equipment
- Continuous guidance through Plant Construction
- Machine Construction
- Machine Delivery
- Machine Commissioning
- Trial Productions
- Training of Machine Operators
- After-Sale Spare Parts & Service
- Software & Electronics Upgrades
- Repair & Maintenance AMC

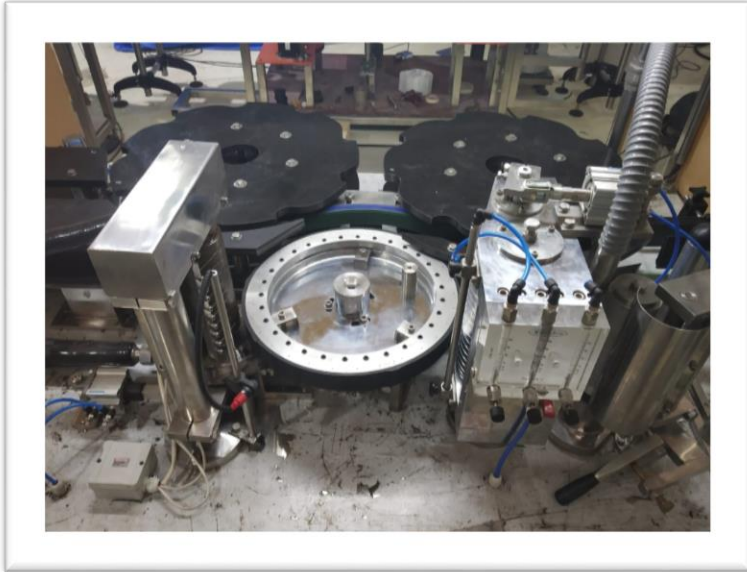

For providing turnkey solutions we have tie-ups & reference-based companies which deal in bottle blowing machinery & miscellaneous processing equipment. These associate's machinery can be availed according to the requirements of the client.

Customized Manufacturing Process

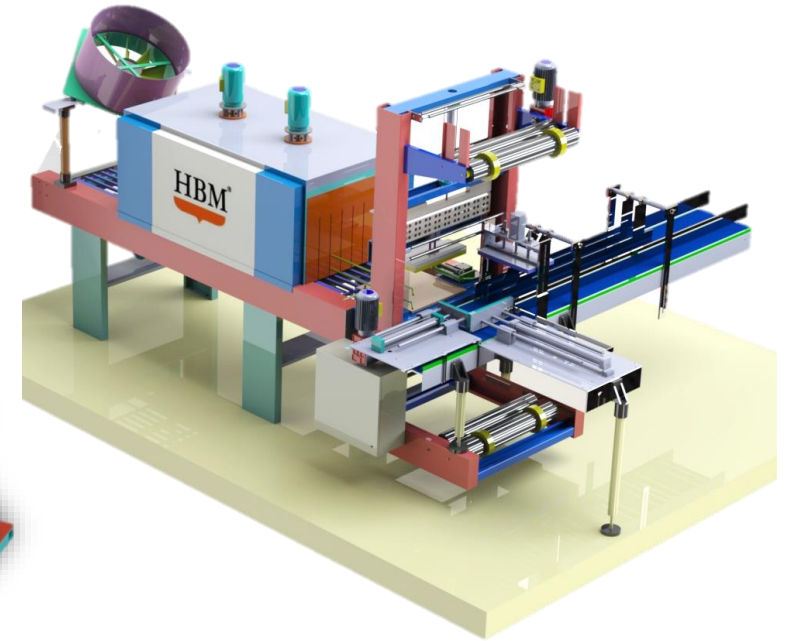

Our Machines:

**Automatic Rinsing, Filling
& Capping Machine**

**Automatic BOPP Roll-Feed
Labeling Machine**

**Automatic Heat Forming &
Shrink Wrapping Machine**

Air & Chain Conveyors:

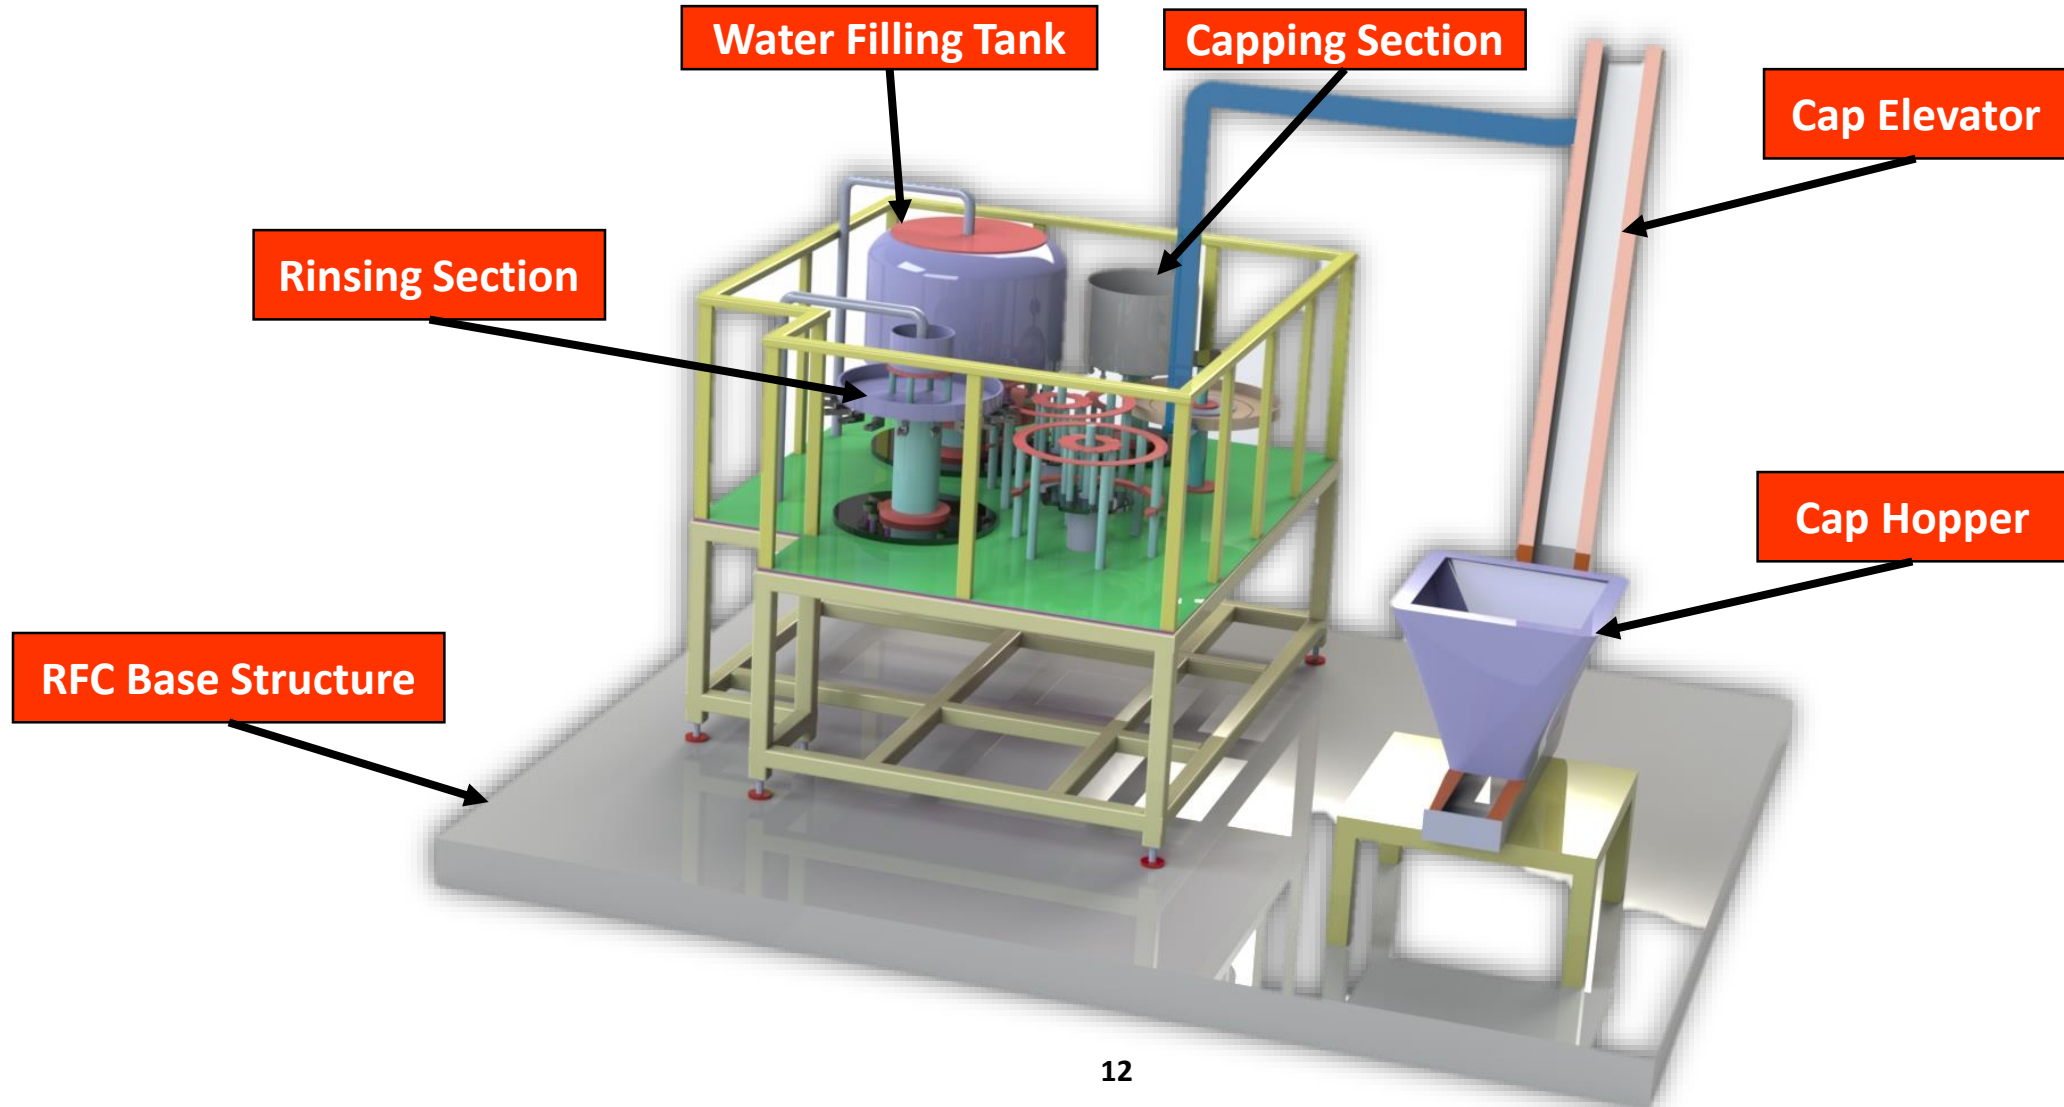

**HBM – Air Conveyor System
(Empty Bottle Conveyors)**

**HBM – Slat Chain Conveyor System
(Filled Bottle Conveyors)**

HBM Filling Systems – Machine Construction

Automatic Rinsing/Filling/Capping (Trio-block) Machine, for packaging in PET Bottles

Reverse Osmosis (RO Plant)

Water Purification System for Packaged Drinking Water

Why HBM?

Maximum filling accuracy

- ✓ Hiemens probe technology
- ✓ Turbulence-free change between two filling speeds through the use of membrane technology

Perfect harmony between the pneumatic components and the electronic components

- ✓ All processes 100 percent reproducible: no additional installations (e.g. pressure transducer with corresponding electronics) required

Precision and long service life

- ✓ Use of special pneumatic components with a significantly higher life cycle than the one of conventional switching.

Why HBM?

We understand your business needs.

HIGH QUALITY & ROBUST PERFORMANCE

SUPERIOR SERVICE

LOW MAINTENANCE

HIGH PRODUCTION WITH ZERO BREAKDOWN

CUSTOMIZED MACHINERY

Training and Instructions

It is the responsibility of the customer to ensure that all personnel who will be expected to operate or maintain the equipment participate in training and instruction sessions and become trained operators.

All personnel operating, inspecting, servicing or cleaning this equipment must be properly trained in operation and machine safety. BEFORE operating this equipment, read the operating instructions in the equipment technical manual and safety manual. Become thoroughly familiar with the machinery and its controls.

General Safety

Quality Standards - ISO Certifications

We have set high quality standards & efficient executions for our organization. To begin with; our products are made by use of the highest grade metal alloys and other raw materials available in the market. These are procured from our trusted vendors and are checked on the basis of tensile strength and durability, prior to use. Moreover, we are equipped with latest facilities at our in-house unit for quality testing. We also follow full transparency in our work activities, which helps the clients to get authentic and honest deals. With an aim to continuously go ahead of our counterparts in the path of market appreciation, we are equipped with ultra modern tools and machinery. These are coupled at latest manufacturing unit, which aids to the production process of quality products. Each and every department of manufacturing, quality, sales, warehousing, R&D, etc. are employed with experienced and knowledgeable team members who undertake and complete all the tasks with result-bound solutions. Apart from this, we follow strict rules and regulations, that are based on prominent features of timely delivery of products, pre and post sales support and ethical business standards.

We are ISO Certified 9001:2015 in Manufacturing of Machines for the Food and Beverages Industries for the purpose of handling, processing, packaging, labelling operations.

Research & Development

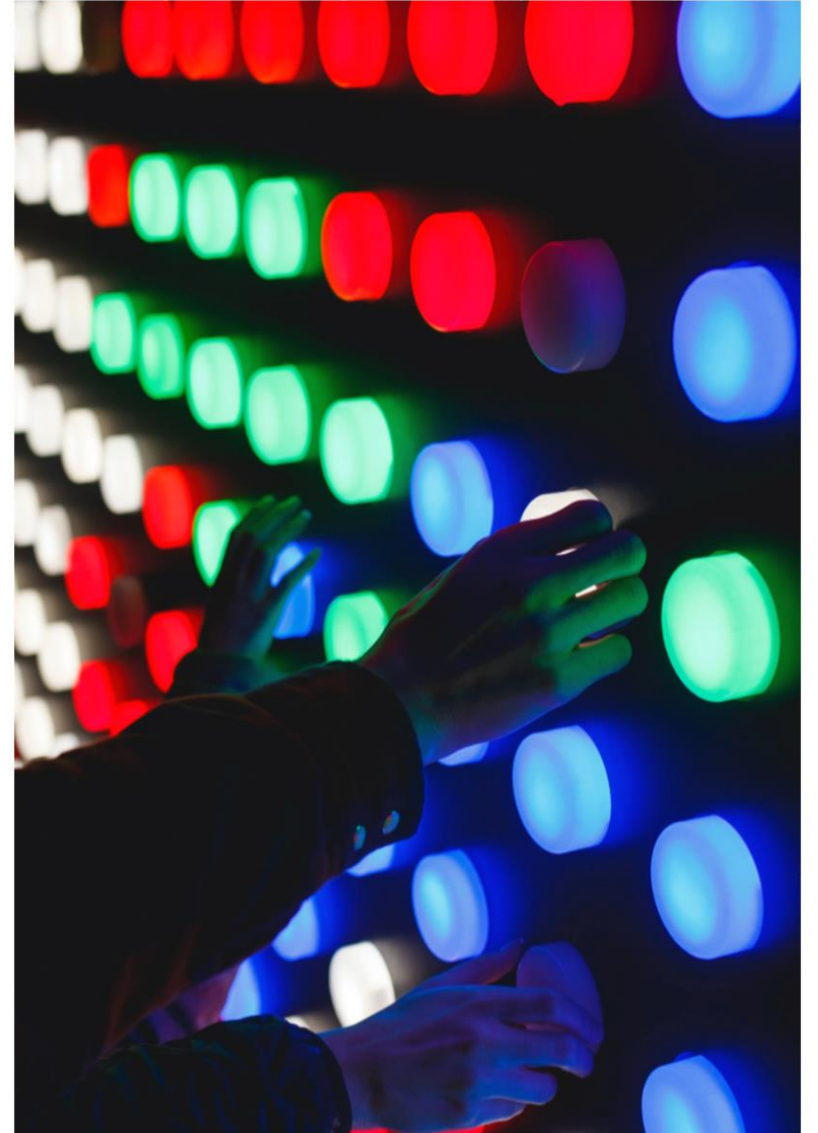

Hiemens Bottling Machines is famous & prominent for its path breaking designs & development by the company. Hiemens Bottling Machines was the first company in the Country to design the machines on neck holding systems for PET Bottles. Hiemens Bottling Machines were the first one to make B.O.P.P Labeling Machines in India. Hiemens Bottling Machines developed a very special kind of volumetric filling line for packaging of edible oil; which is a huge success in the Industry and brought a revolutionary automation subsystem in the packaging section of the edible oil industry. Hiemens Bottling Machines designed a special BOPP Labeling machine which can label square & hexagonal bottles. It's patent is pending. Hiemens Bottling Machines has recently developed an Aluminum canning Line for beer & soft drinks in 2016. With an extensive catalogue of machinery developed & designed by Mr. D.P. Sharma, he is a pioneer not only in making machinery but also in developing a long-lasting professional relation with his clients. A bond built upon astute service provision & extended life-span of the machinery.
